Potential Real Estate Values

- Raising real estate taxes to the **2.3%** index, or **19.75** mills, would increase the District's tax revenue by **\$602,901** without taking the real estate tax appeal into consideration.
- If the District would raise real estate taxes to the index, the following increases would take place on the respective assessed values:

Assessed Value Tax Increase

\$75,000.00	\$33.30
\$100,000.00	\$44.40
\$125,000.00	\$55.50
\$150,000.00	\$66.60
\$175,000.00	\$77.70
\$200,000.00	\$88.80

Current Tax Appeal

- Right now, the District is in the middle of a real estate tax appeal that could potentially cause a decrease of approximately (\$24,500,000) in assessed valuation for the District.
- This appeal is for the following calendar years: **2017**, **2018**, and **2019**.
- What does this mean? The District would owe the following in tax refunds for prior taxes:
 - Potential Refund Owed for 2017 Taxes (**19.0771 mills**) (**\$467,389**)
 - Potential Refund Owed for 2018 Taxes (**19.306 mills**) (**\$472,997**)
 - Total Potential Refund Amount Owed (\$940,386)
- For tax year 2019 and beyond, the District would lose (\$472,997) in tax revenue at the current millage rate of 19.306.

Current Tax Appeal

• If the District would decide to raise real estate taxes to the index and the real estate tax appeal would go through at the full decrease of assessed valuation being asked by the appellant, the following result would occur:

Increase due to raising the taxes to the index
 \$ 602,901

• Decrease due to tax appeal at **19.75 mills** (\$483,875)

• Net increase in tax revenue \$ 119,026

- Although the District would generate a net increase of tax revenue in the amount of \$119,026, the District would owe (\$940,386) in refunds to the appellant. This would result in a loss of (\$821,360).
- If the District were to not raise taxes and lose the tax appeal, the District would incur a loss of (\$1,413,383).
- The District currently has approximately \$500,000 in the Risk Management Fund to help offset the potential loss.

Debt Service

For many years, the Keystone Oaks School District carried debt related to major construction projects completed primarily in the mid-1990s. In recent years, the district has made good progress in paying down this debt, while completing several million dollars in renovations. There are still renovations that need to be done, but the district remains committed to reducing its debt in a timely fashion, and the current bonds are scheduled to be paid off at the end of the 2022-2023 school year.
