CURRICULAR FIELD TRIPS

Section 1  
Purpose  
The Board recognizes that curricular field trips, when used for teaching and learning integral to the curriculum, are an educationally sound and important component in the instructional program of the schools. Properly planned and executed field trips can:

2. Arouse new interests among students.

3. Help students relate academic learning to the reality of the world outside of school.

4. Introduce community resources, such as natural, cultural, industrial, commercial, governmental, and educational.

5. Afford students the opportunity to study real things and real processes in their actual environment.

Section 2  
Definition  
For purposes of this policy, a curricular field trip shall be defined as any trip by students away from school premises that is an integral part of approved planned instruction, is conducted as a first-hand educational experience not available in the classroom and is supervised by a teacher or district employee.
