KEYSTONE OAKS SCHOOL DISTRICT

Policy Guide

Policy Title
DIABETES MANAGEMENT

Policy No. 209.2

Section
PUPILS

Adopted
DECEMBER 4, 2018

Revised

POLICY NO. 209.2
DIABETES MANAGEMENT

Section 1 Purpose

The Board recognizes that an effective program of diabetes management in school is crucial to:

1. The immediate safety of students with diabetes.

2. The long-term health of students with diabetes.

3. Ensure that students with diabetes are ready to learn and participate fully in school activities.

4. Minimize the possibility that diabetes-related emergencies will disrupt classroom activities.

Section 2 Authority

The Board adopts this policy in accordance with applicable state and federal laws and regulations, and Board policies and administrative regulations, regarding the provision of student health services.

Section 3 Definitions

Individualized Education Program (IEP) means the written educational statement for each student with a disability that is developed, reviewed and revised in accordance with federal and state laws and regulations. A student with a disability is a school-aged child within the jurisdiction of the District who has been evaluated and found to have one or more disabilities as defined by law, and who requires, because of such disabilities,

### DIABETES MANAGEMENT

special education and related services.

**Section 504 Service Agreement (Service Agreement)** means an individualized plan for a qualified student with a disability which sets forth the specific related aids, services, or accommodations needed by the student, which shall be implemented in school, in transit to and from school, and in all programs and procedures, so that the student has equal access to the benefits of the school’s educational programs, nonacademic services, and extracurricular activities. A qualified student with a disability means a student who has a physical or mental disability which substantially limits or prohibits participation in or access to an aspect of the district’s educational programs, nonacademic services or extracurricular activities. All Service Agreements for a student with diabetes shall include a **Diabetes Medical Management Plan (DMMP)**.

**Diabetes Medical Management Plan (DMMP)** means a document describing the medical orders or diabetes regimen developed and signed by the student's health care practitioner and parent/guardian.

### Section 4 Guidelines

Before a student can receive diabetes-related care and treatment in a school setting, the student's parent/guardian shall provide written authorization for such care and instructions from the student's health care practitioner. The written authorization may be submitted as part of a student's DMMP.

Diabetes-related care shall be provided in a manner consistent with Board policy, district procedures and individualized student plans such as an IEP, Service Agreement or DMMP.

In order to maintain a student's health and safety, each student's individualized plan shall address what information will be provided to school staff and other adults who have responsibility for the student in the school setting.

Student health records shall be confidential and maintained in accordance with state and federal laws and regulations.

## DIABETES MANAGEMENT

### Training of School Personnel

At a minimum, school nurses and health paraprofessionals shall complete training, on an annual basis, developed by the state or training offered by a licensed health care practitioner with expertise in the care and treatment of diabetes, that includes at a minimum:

1. An overview of all types of diabetes.
3. The symptoms and treatment for blood glucose levels outside of target ranges, as well as symptoms and treatment for hypoglycemia, hyperglycemia and other potential emergencies.
4. Techniques on administering glucagon and insulin.

If the diabetes-related care provided to a particular student will include administration of diabetes medication via injection or infusion, the Board shall require the following:

1. The parent/guardian and the student's health care practitioner must provide written authorization for such administration; and
2. The trained personnel must receive annual training for such administration from a licensed health care practitioner with expertise in the care and treatment of diabetes.

Other school employees, including classroom teachers, lunchroom staff, and coaches/sponsors, shall receive annual diabetes care training appropriate to their responsibilities for students with diabetes.

### Student Possession and Use of Diabetes Medication and Monitoring Equipment

Prior to student possession or use of diabetes medication and monitoring equipment, the Board shall require the following:

SC 1414.3
22 PA Code 12.3
POLICY NO. 209.2
DIABETES MANAGEMENT

1. A written statement from the student's health care practitioner incorporated in the Service Agreement that provides:

   a. Name of the drug.

   b. Prescribed dosage and/or the method by which dosage should be calculated.

   c. Times when medication is to be taken.

   d. Times when monitoring equipment is to be used.

   e. Length of time medication and monitoring equipment is prescribed.

   f. Diagnosis or reason medication and monitoring equipment is needed.

   g. Potential serious reactions to medication that may occur.

   h. Emergency response.

   i. Whether the child is competent and able to self-administer the medication or monitoring equipment and to practice proper safety precautions.

2. A written request from the parent/guardian that the school comply with the instructions of the student's health care practitioner. The request from the parent/guardian shall include a statement relieving the district and its employees of responsibility for the prescribed medication or monitoring equipment and acknowledging that the school is not responsible for ensuring that the medication is taken or the monitoring equipment is used.

3. As part of the Service Agreement, a written acknowledgement from the school nurse that the student has demonstrated that s/he is capable of self-administration of the medication and use of the

|-----------------------|
| monitoring equipment and a written acknowledgement
from the student that s/he has received instruction from
the student's health care practitioner on proper safety
precautions for the handling and disposal of the
medications and monitoring equipment, including
acknowledgement that the student will not allow other
students to have access to the medication and monitoring
equipment and that s/he understands appropriate
safeguards. |
| The written request for student possession and use of diabetes
medication and monitoring equipment shall be reviewed
annually, along with the required written statements from the
parent/guardian and the student's health care practitioner. If there
is a change in the student's prescribed care plan, level of self-
management or school circumstances during the school year, the
parent/guardian and the student's health care practitioner shall
update the written statements. |
| Students shall be prohibited from sharing, giving, selling and
using diabetes medication and monitoring equipment in any
manner other than which it is prescribed during school hours, at
any time while on school property, at any school-sponsored
activity and during the time spent traveling to and from school
and school-sponsored activities. Violations of this policy,
provisions of a Service Agreement or IEP, or demonstration of
unwillingness or inability to safeguard the medication and
monitoring equipment may result in loss of privilege to self-
carry the diabetes medication and monitoring equipment, and
may result in disciplinary action in accordance with Board
policy and applicable procedural safeguards. |
| If the District prohibits a student from possessing and self-
administering diabetes medication and operating monitoring
equipment, or if a student is not capable of self-administering
diabetes medication or operating monitoring equipment, the
District shall ensure that the diabetes medication and monitoring
equipment is appropriately stored in a readily accessible location
in the student's building. The school nurse and other designated
school employees shall be informed where the medication and
monitoring equipment is stored and the means to access them. |

DIABETES MANAGEMENT

Section 5

Delegation of Responsibility

The Superintendent or designee, in conjunction with the school nurse(s), shall develop administrative regulations for care and treatment of students with diabetes in the school setting.

The Superintendent or designee shall coordinate training for school employees. Such training may be included in the district's Professional Education Plan.

The Superintendent or designee shall annually distribute to all staff, students and parents/guardians this policy along with the Code of Student Conduct.
