CONCUSSION MANAGEMENT

THIS POLICY SHALL SUPERSEDE POLICY 230.1.

Section 1
Purpose

The Board recognizes that concussions can have serious short-term and long-term consequences if not managed properly. Students participating in sports and recreational activities are at an increased risk of experiencing a concussion. The Board recognizes the importance of ensuring the safety of students participating in district programs and educating them of the potential risks.

This policy has been developed to provide guidance for the detection, treatment, and short and long-term management of a concussion and its symptoms although prevention is the goal.

Section 2
Definitions

Appropriate medical professional shall mean any of the following:

1. A licensed physician who is trained in the evaluation and management of concussions.

2. A licensed or certified health care professional trained in the evaluation and management of concussions and designated by a licensed physician trained in the evaluation and management of concussions.

3. A licensed psychologist neuropsychologically trained in the evaluation and management of concussions or who

POLICY NO. 123.1
CONCUSSION MANAGEMENT

has postdoctoral training in neuropsychology and specific training in the evaluation and management of concussions.

Athletic activity shall mean any of the following:

1. Interscholastic athletics.

2. An athletic contest or competition, other than interscholastic athletics, that is sponsored by or associated with the school, including cheerleading, club sponsored sports activities and sports activities sponsored by school affiliated organizations.

3. Noncompetitive cheerleading that is sponsored by or associated with the school.

4. Practices, interschool practices and scrimmages for all athletic activities.

Concussion is a mild traumatic brain injury. Concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head. Signs and symptoms of a concussion include, but are not limited to: amnesia, confusion, dizziness, headache, loss of consciousness, nausea, poor attention, poor coordination, slurred speech, visual disturbance, and vomiting. Recovery from concussion will vary. Avoiding re-injury and over-exertion until fully recovered are the cornerstones of proper concussion management.

Section 3 Delegation of Responsibility

Each school year, prior to participation in an athletic activity, every student athlete and his/her parent/guardian shall sign and return the acknowledgement of receipt and review of the Concussion and Traumatic Brain Injury Form (123.1-AR-1).

The Superintendent or designee shall develop administrative regulations to implement this policy, which shall include protocols for concussion prevention, education, and management.

24 P.S. Sec. 5322

24 P.S. Sec. 5323
## POLICY NO. 123.1
### CONCUSSION MANAGEMENT

### Guidelines

The District will provide educational information concerning concussions in the Athletic Handbook, the district website and by any other reasonable means. The information provided will discuss 1) what a concussion is, 2) the symptoms of a concussion, 3) what I should do if I think I may have a concussion, and 4) how I can help prevent a concussion.

The District will hold an informational meeting at least annually for all competitors regarding concussions and other head injuries, the importance of proper concussion management, and how preseason baseline assessments can aid in the evaluation, management and recovery process. In addition to the student athletes, such meetings may include parents/guardians, coaches, other appropriate school officials, physicians, neuropsychologists, athletic trainers and physical therapists.

### Removal from Play

A student who, as determined by a game official, coach from the student’s team, certified athletic trainer, licensed physician, licensed physical therapist or other official designated by the district, exhibits signs or symptoms of a concussion or traumatic brain injury while participating in an athletic activity shall be removed by the coach from participation at that time.

The student shall not return to school or activity until he or she has received written, signed authorization from a licensed physician to do so. Any student who continues to have signs or symptoms upon return to activity must be removed from play and be reevaluated by their family health care provider. The District's chief school physician will make the final decision on return to activity, including physical education class, recess, and after-school sports. Any and all authorizations to return to activity will be maintained by the District in the student's permanent medical file.

24 P.S. Sec. 5323
### POLICY NO. 123.1  
**CONCUSSION MANAGEMENT**

#### Training

All coaches shall annually, prior to coaching an athletic activity, complete a concussion management certification training course offered by the Centers for Disease Control and Prevention, the National Federation of State High School Associations or another provider approved by the Department of Health.

#### Penalties

A coach found in violation of the provisions of this policy related to removal from play and return to play shall be permanently suspended from coaching any athletic activity.

#### Education Support Services

The Board further recognizes the importance of ensuring that a student who has suffered a concussion, either during a school activity or outside school hours, be provided time for cognitive rest as necessary. As a result, a student who has sustained a concussion will be provided with appropriate safeguards and educational accommodations during the healing phase of his/her recovery. Because of the short-term nature of concussion, a student may require significant short-term program modifications without the benefit of an IEP or 504 Plan already in place. The District will ensure that any orders for cognitive rest during school hours or graduated return to classroom activity specified by such student's physician are followed.

Statement and Acknowledgement Form

I, ________________________________ (student), acknowledge that I have an obligation to be an active participant in my own health and that I have the direct responsibility to report to my coaches, team physicians and/or athletic trainers all prior and existing injuries and illnesses that could potentially impact my ability to practice or compete in interscholastic activities. This responsibility includes reporting:

1. Any prior head injury or concussion that I have suffered.
2. Any new head injury or concussion that I suffer.
3. Any prior concussion-related symptoms that I have experienced.
4. Any new concussion-related symptoms that I experience.

I further acknowledge that my physical condition and health may be negatively impacted unless I provide to my coaches, team physicians, and/or athletic trainers accurate and complete medical information about head injuries, concussions, and/or concussion-related symptoms regardless of whether the applicable symptoms were experienced before, during or after an athletic activity.

By signing below, I represent and acknowledge that:

My school has provided me with educational information concerning concussions, including the U.S. Department of Health and Human Services Centers for Disease Control and Prevention ("CDC") Concussion fact sheet, (See https://www.cdc.gov/headsup/index.html) and/or any other related materials, documents, and/or sources that are relevant to this subject. The information provided by the school discusses 1) what a concussion is, 2) the symptoms of a concussion, 3) what I should do if I think I may have a concussion, and 4) how I can help prevent a concussion.

I have carefully reviewed the information that was provided and have had an opportunity to ask my coaches, the Athletic Director, my school principal or assistant principal questions concerning the information as well as this form.

I have fully disclosed to my coaches, team physicians and/or athletic trainers any prior injuries and illnesses that could impact my fitness to compete in sports related activities. This includes reporting any prior head injuries or concussions that I have suffered and/or any prior concussion-related symptoms that I have experienced.

I will immediately disclose to my coaches, team physicians, and/or athletic trainers any new injury or illness that could impact my fitness to compete in sports related activities. This includes reporting any new head injury or concussion that I suffer and/or any new concussion-related symptoms that I experience. There is a possibility that my participation in sports activities, including practices as well as games, may result in a head injury or concussion. In rare cases, these conditions can cause permanent brain damage, and even death.
A concussion can affect my ability to perform everyday activities, and can affect my reaction
time, balance, sleep, and classroom performance. Some of the symptoms of a concussion may be
noticed right away while other symptoms may only show up hours or days after the event that
caused the concussion.

If I suspect that I may have suffered a concussion or that I may be experiencing concussion-
related symptoms, I will immediately report the matter to my coaches, team physicians and/or
athletic trainers.

If I suspect a teammate may have suffered a concussion or may be experiencing concussion-
related symptoms, I will immediately report the matter to my coaches, team physicians or
athletic trainers.

If I have been removed from play during an athletic activity because of a concern that I may have
suffered a concussion or am experiencing concussion-related symptoms, I will not return to the
practice or game that same day unless a health care provider rules out a suspected concussion at
or very near the time I am removed from play. If I have been removed from play during an
athletic activity because of a concern that I may have suffered a concussion or am experiencing
concussion-related symptoms, and a concussion was not ruled out by a health care provider at or
very near the time I was removed from play, I will not thereafter return to play in a game or
practice until I have been evaluated by and have received written clearance to resume
participation in athletic activities from a healthcare provider who has been trained in the
evaluation and management of concussion and head injuries, as specified by law.

Following a concussion, the brain needs time to heal. I understand that if I receive a concussion,
I am much more likely to have a repeat concussion or further damage if I return to play before
my symptoms from the initial concussion fully resolve.

I represent and certify that my parent/guardian and I have read this entire document; understand
the contents of this document and the consequences of signing it; and agree to be bound by this
document.

Sudden Cardiac Arrest Prevention Act – 24 P.S. Sec. 5331 et seq.
What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA doesn’t just happen to adults; it takes the lives of students, too. However, the causes of sudden cardiac arrest in students and adults can be different. A student’s SCA will likely result from an inherited condition, while an adult’s SCA may be caused by either inherited or lifestyle issues.

SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart’s electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

SCA is the #1 cause of death for adults in this country. There are about 300,000 cardiac arrests outside hospitals each year. About 2,000 students die of SCA each year. It is the #1 cause of death for student athletes.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- fainting or seizures during exercise;
- unexplained shortness of breath;
- dizziness;
- extreme fatigue;
- chest pains; or
- racing heart.

These symptoms can be unclear in athletes, since people often confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience SCA die from it.
Act 59 – the Sudden Cardiac Arrest Prevention Act (the Act)

The act is intended to keep student-athletes safe while practicing or playing. The requirements of the act are:

- All student-athletes and their parents or guardians must read and sign this form. It must be returned to the school before participation in any athletic activity. A new form must be signed and returned each school year.

- The District will hold an informational meeting at least annually for all competitors regarding the symptoms and warning signs of sudden cardiac arrest. In addition to the student athletes, such meetings may include parents/guardians, coaches, other appropriate school officials, physicians, pediatric cardiologists, and athletic trainers.

**Removal from play/return to play**

- Any student-athlete who shows signs or symptoms of SCA must be removed from play. The symptoms can happen before, during or after activity. Play includes all athletic activity.

- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner or cardiologist. The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed and understand the symptoms and warning signs of SCA.

POLICY NO. 150
TITLE I – COMPARABILITY OF SERVICES

Section 1

Purpose

The equivalent distribution of district resources is one means the District shall use to ensure all students receive a quality education. This policy demonstrates the district’s commitment to ensure that no discrimination occurs in the distribution of resources funded by state and local sources, regardless of the receipt of federal funds.

Section 2

Authority

The Board directs that each district school receiving Title I funds must use state and local funds to provide services that, taken as a whole, are at least comparable to services in those schools in the District that do not receive Title I funds.

If all schools in the District receive Title I funds, the Board directs that state and local funds shall be used to provide services that, taken as a whole, are substantially comparable in each school.

The Board acknowledges that comparability of services may be measured on a grade-span by grade-span basis or a school-by-school basis using the current formula provided by the Bureau of Federal Programs of the PA Department of Education.

20 U.S.C. 6321

20 U.S.C. 6321
POLICY NO. 150
TITLE I – COMPARABILITY OF SERVICES

Section 3  Definition

For purposes of this policy, grade span is defined as a similar two-grade span difference or less. For example, a grade span of K-2 to K-4, not a grade span of K-2 to K-5.

Section 4  Delegation of Responsibility

If the District has more than one (1) building per grade span, the Federal Programs Coordinator shall complete a Detailed School Data Sheet. Regardless of buildings per grade span, the Federal Programs Coordinator shall annually complete a Comparability Assurance Form to provide written assurance of equivalence among schools in regards to services, including the provision of curriculum materials; instructional supplies; and teachers, administrators and other staff.

Section 5  Guidelines

For the purposes of determining comparability, the District may exclude:

1. State and local funds expended for language instruction education programs.

2. Excess costs associated with providing services to students with disabilities.

3. Unexpected changes in enrollment or personnel assignments occurring after the beginning of the school year.

4. Other expenditures from supplemental state or local funds consistent with the intent of Title I.

Complaints by individuals and organizations regarding implementation of equivalence between schools shall be processed in accordance with Board policy.
