**POLICY NO. 800.1  
ELECTRONIC SIGNATURES/RECORDS**

The District shall implement and maintain electronic recordkeeping systems to securely receive, store, and reproduce electronic records and signatures relating to transactions in their original form.

73 P.S. 2260.103,  
2260.305, 2260.306

Such a system shall allow the District to implement:

1. A security procedure for the purposes of verifying that an electronic signature is that of a specific person or for detecting changes or errors in the information in an electronic record.
2. Appropriate control processes and procedures to ensure adequate preservation, disposition, integrity, security, confidentiality and auditability of electronic records.
3. A consistent manner and format in which the electronic records must be created, generated, sent, communicated, received and stored.

73 P.S. 2260.502

73. P.S. 2260.502

Electronic Signatures

An electronic signature may be used if the law requires a signature unless there is a specific law, regulation, or order that requires records to be manually signed. The issuance and/or acceptance of an electronic signature by the District shall be permitted in accordance with the provisions of this policy and all applicable state and federal laws and regulations. Such electronic signature shall have the full force and effect of a manual signature only if the electronic signature satisfies all of the following requirements:

73 P.S. 2260.101 et seq  
15 U.S.C. 7001 et seq  
21 P.S. 483.1 et seq  
Pol. 716

1. The signing employee is authorized to manually sign the document on behalf of the District.
2. The electronic signature identifies the individual signing the document by their name and position.
3. The individual signing with an electronic signature has signed a statement of exclusive use.

**POLICY NO. 800.1**  
**ELECTRONIC SIGNATURES/RECORDS**

4. The identity of the individual signing with an electronic signature is capable of being validated through the use of an audit trail.
5. The electronic signature and the document to which it is affixed cannot be altered once the electronic signature has been applied.
6. The electronic signature conforms to all other provisions of this policy.

The District shall maintain a secure log of each employee authorized to utilize an electronic signature in connection with district business.

This policy does not require a specific method for executing an electronic signature. The employee signing a particular document is responsible for verifying that the method chosen is appropriate for the nature of the transaction. Employees must consider confidentiality, authentication of signatures, and verification that the document signed is, in all respects, identical to the one to which the signer intends to bind the District.

Any electronic signature that appears to be forged, altered, or otherwise not authentic, or that is not compliant with law or regulation, this policy or related administrative regulation, is not a valid signature. Should an electronic signature be deemed invalid, the Superintendent or designee may require a manual signature.

All other policies that apply to the execution of contracts or other documents on behalf of the District remain in full force and effect.
