Weekend/holiday participation in any extracurricular activity requires that a student must attend at least one-half of the school day immediately preceding the weekend/holiday. Students will not be penalized if school is cancelled. Students missing more than one-half the school day must have a valid doctor's excuse (i.e. for sickness, well-care visit for chronic conditions, stipulation in a 504 plan) to participate.

With regards to any extracurricular activity that would involve a selection process, the selection of student participants will be conducted in a fair and consistent manner. The selection procedure(s) will be communication to the students and their parent/guardians in a timely fashion.

The responsibility for conducting a student activity, including the tryout/selection process, rests with the sponsor/coach, under the supervision of the building principal(s), and in accordance with the following guidelines:

1. All students who meet the district's academic eligibility criteria to try out and participate in activities will have the right to try out for student activities.
2. Notice to students will be made at least one month in advance and in a manner to which all students have information concerning the date, time, and place of the tryouts.
3. Tryouts will be held at reasonable dates, times, and places.

POLICY NO. 122
EXTRACURRICULAR ACTIVITIES

4. Students will be informed of the criteria to be used in the selection process, as well as the relative importance of the various criteria, in a reasonable time prior to the tryouts.
5. All students who try out will be given equal opportunity to demonstrate their skills and abilities.
6. A fair, reasonable, and to the extent possible, objective system of judging will be used by the sponsor/coaches in selecting the students. Judging can be done either individually by the sponsor/coaches or by the use of other qualified and competent judges if the sponsor/coach so desires.
7. Students may participate in more than one (1) activity even if these activities occur at the same time of the year. A mutually agreeable arrangement must be made by the student and all sponsors/coaches involved. If sponsors/coaches cannot agree to mutually agreeable arrangement, the conflict will be resolved by the administration, which includes the possibility that the student may need to make a choice between the two (2) activities.
8. Students not selected for an activity will be notified in a timely manner. Whenever possible, they will be informed of their areas of strengths/weaknesses so that the student can work to improve the areas of weakness in order to increase the possibility of selection in future tryouts.

Supervision

A member of the professional staff, approved sponsor or independent volunteer must be present at all times when a building or part of a building is being used by students. This individual must remain at the location of the activity until all students have departed.

Such meetings must be voluntary, student-initiated, and not sponsored in any way by the school, its agents, or employees. The Board encourages secondary level students to pursue clubs and interests that may not be related directly to any of the curriculum programs offered in the District. In pursuit of such goal and in compliance with law, the Board maintains a limited open forum in which secondary students may meet for voluntary student-initiated activities unrelated directly to the curriculum, regardless of the religious, political, philosophical or other content of the speech related to such activities.

The District shall provide secondary students the opportunity for non-curriculum related student groups to meet on the school premises during non-instructional time for the purpose of conducting a meeting within the limited open forum and shall not deny equal or a fair opportunity to, or discriminate against any students who wish to conduct a meeting within that limited open forum on the basis of religious, political, philosophical, or other content of the speech at such meetings. Such meetings must be voluntary, student-initiated, and not sponsored in any way by the school, its agents or employees. Such groups shall have reasonable access to district facilities for meetings. Title 22 Sec. 4.275.10 34 CFR Sec. 106.41 Pol. 103, 103.1</p> <p>SC 511</p>

**POLICY NO. 123
INTERSCHOLASTIC ATHLETICS**

The Board shall maintain the program of interscholastic activities at minimal cost to participating students subject to the following conditions:

1. The Board's responsibility for the provision of supplies shall carry the same exemptions as listed in the Board's policy on regular school supplies.
2. Students may be required to assume all or part of the costs for travel and attendance at interscholastic events and trips.
3. The Board reserves the right to limit support for any activities.

Pol 110

The Board shall determine the standards of eligibility to be met by all student's participation in an interscholastic program. Such standards shall require that each student, before participating in any interscholastic activity, be covered by accident insurance; be free of injury; and undergo a physical examination by a licensed physician.

SC 511

The Board further adopts those eligibility standards set by the Constitution of the Pennsylvania Interscholastic Athletic Association, and shall review such standards periodically to ascertain that they continue to be in conformity with the objectives of this District. The Board reserves the right to require a student desiring to participate in the District's interscholastic athletic programs to provide such evidence as may be necessary to establish the student's eligibility under such standards.

The Board believes that participation in interscholastic athletics is an important part of the total educational process; however, participation in interscholastic athletics is a privilege and not a right. Participation shall be contingent upon successful final completion of regular curricular requirements. In order to ensure a student's continued eligibility to participate in athletics, administrators, coaches and sponsors shall evaluate each student's academic work, attendance and behavior according to established administrative regulations. The efforts that address student needs as part of the evaluation are designed to support student learning and growth in his/her academic and athletic

1. The conduct occurs during the time the student is traveling to and from school or traveling to and from school-sponsored activities, whether or not via school District furnished transportation.
2. The student is a member of an extracurricular activity and has been notified that particular off-campus conduct could result in exclusion from such activities.
3. Student expression or conduct materially and substantially disrupts the operations of the school, or the administration reasonably anticipates that the expression or conduct is likely to materially and substantially disrupt the operations of the school.
4. The conduct has a direct nexus to attendance at school or a school-sponsored activity, such as an agreement in school, at a school-sponsored activity, or during the time spent traveling to and from school and school-sponsored activities to complete a transaction outside of school that would violate the Student Discipline Code.
5. The conduct involves the theft or vandalism of school property.
6. There is otherwise a nexus between the proximity or timing of the conduct in relation to the student's attendance at school or school-sponsored activities.

Guidelines

~~Keystone Oaks School District is a member of the WPIAL and PIAA and, as such, its interscholastic sports program is under the jurisdiction of and subject to the rules and regulations of these organizations.~~

~~To be eligible for a sport, a participant must be an amateur, less than nineteen (19) years of age, have the written consent of parents or guardians, must receive and pass a physical exam by a physician and may play only four (4) years in one or more sports. A participant must be enrolled in and attend school in accordance with school policy, maintain a passing grade of C in at least four (4) full credit subjects, and must not have attended more than eight (8) semesters beyond the eighth grade.~~

~~Furthermore, the regulations state that all participants must be resident students or nonresident students attending from a District not maintaining a senior high school. Keystone Oaks insists that all those who represent the school in athletic events must adhere to all school rules relative to behavior as outlined in Board Policy No. 218 and the PIAA Sportsmanship Guidelines. Also, the administration may raise the academic rules beyond those required by WPIAL, if at any time it is necessary or desirable.~~

~~An additional requirement for eligibility shall be adherence to the provision of Pennsylvania law as it applies to athletic participation: the use of anabolic steroids is prohibited, except for a valid medical purpose, by any pupil involved in school related athletics.~~

~~First Violation — Suspension from school athletics for the remainder of the season. Referral to and participation in programs offered by the Student Assistance Team as set forth in the District's drug and alcohol policy.~~

~~Second Violation — Suspension from school athletics for the remainder of the season and the following season. Referral to and participation in programs offered by the Student Assistance Team as set forth in the District's drug and alcohol policy.~~

Athletic activity shall mean any of the following:

1. Interscholastic athletics.

3. Noncompetitive cheerleading that is sponsored by or associated with the school.

Concussion is a mild traumatic brain injury. Concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head. Signs and symptoms of a concussion include, but are not limited to: amnesia, confusion, dizziness, headache, loss of consciousness, nausea, poor attention, poor coordination, slurred speech, visual disturbance, and vomiting. Recovery from concussion will vary. Avoiding re-injury and over-exertion until fully recovered are the cornerstones of proper concussion management.

The Board further recognizes the importance of ensuring that a student who has suffered a concussion, either during a school activity or outside school hours, be provided time for cognitive rest as necessary. As a result, a student who has sustained a concussion will be provided with appropriate safeguards and educational accommodations during the healing phase of his/her recovery. Because of the short-term nature of concussion, a student may require significant short-term program modifications without the benefit of an IEP or 504 Plan already in place. Statement and Acknowledgement Form**

I, _____ (student), acknowledge that I have an obligation to be an active participant in my own health and that I have the direct responsibility to report to my coaches, team physicians and/or athletic trainers all prior and existing injuries and illnesses that could potentially impact my ability to practice or compete in interscholastic activities. This responsibility includes reporting:

1. Any prior head injury or concussion that I have suffered.
2. Any new head injury or concussion that I suffer.
3. Any prior concussion-related symptoms that I have experienced.
4. Any new concussion-related symptoms that I experience.

I further acknowledge that my physical condition and health may be negatively impacted unless I provide to my coaches, team physicians, and/or athletic trainers accurate and complete medical information about head injuries, concussions, and/or concussion-related symptoms regardless of whether the applicable symptoms were experienced before, during or after an athletic activity.

By signing below, I represent and acknowledge that:

My school has provided me with educational information concerning concussions, including the U.S. Department of Health and Human Services Centers for Disease Control and Prevention ("CDC") Concussion fact sheet, (See <https://www.cdc.gov/headsup/index.html>) and/or any other related materials, documents, and/or sources that are relevant to this subject. The information provided by the school discusses 1) what a concussion is, 2) the symptoms of a concussion, 3) what I should do if I think I may have a concussion, and 4) how I can help prevent a concussion.

I have carefully reviewed the information that was provided and have had an opportunity to ask my coaches, the Athletic Director, my school principal or assistant principal questions concerning the information as well as this form.

I have fully disclosed to my coaches, team physicians and/or athletic trainers any prior injuries and illnesses that could impact my fitness to compete in sports related activities. This includes reporting any prior head injuries or concussions that I have suffered and/or any prior concussion-related symptoms that I have experienced.

I will immediately disclose to my coaches, team physicians, and/or athletic trainers any new injury or illness that could impact my fitness to compete in sports related activities. This includes reporting any new head injury or concussion that I suffer and/or any new concussion-related symptoms that I experience. There is a possibility that my participation in sports activities, including practices as well as games, may result in a head injury or concussion. In rare cases, these conditions can cause permanent brain damage, and even death.

A concussion can affect my ability to perform everyday activities, and can affect my reaction time, balance, sleep, and classroom performance. Some of the symptoms of a concussion may be noticed right away while other symptoms may only show up hours or days after the event that caused the concussion.

If I suspect that I may have suffered a concussion or that I may be experiencing concussion-related symptoms, I will immediately report the matter to my coaches, team physicians and/or athletic trainers.

If I suspect a teammate may have suffered a concussion or may be experiencing concussion-related symptoms, I will immediately report the matter to my coaches, team physicians or athletic trainers.

If I have been removed from play during an athletic activity because of a concern that I may have suffered a concussion or am experiencing concussion-related symptoms, I will not return to the practice or game that same day unless a health care provider rules out a suspected concussion at or very near the time I am removed from play. If I have been removed from play during an athletic activity because of a concern that I may have suffered a concussion or am experiencing concussion-related symptoms, and a concussion was not ruled out by a health care provider at or very near the time I was removed from play, I will not thereafter return to play in a game or practice until I have been evaluated by and have received written clearance to resume participation in athletic activities from a healthcare provider who has been trained in the evaluation and management of concussion and head injuries, as specified by law.

Following a concussion, the brain needs time to heal. I understand that if I receive a concussion, I am much more likely to have a repeat concussion or further damage if I return to play before my symptoms from the initial concussion fully resolve.

I represent and certify that my parent/guardian and I have read this entire document; understand the contents of this document and the consequences of signing it; and agree to be bound by this document.

What is sudden cardiac arrest?

Sudden cardiac arrest (SCA) is when the heart stops beating, suddenly and unexpectedly. When this happens, blood stops flowing to the brain and other vital organs. SCA doesn't just happen to adults; it takes the lives of students, too. However, the causes of sudden cardiac arrest in students and adults can be different. A student's SCA will likely result from an inherited condition, while an adult's SCA may be caused by either inherited or lifestyle issues.

SCA is NOT a heart attack. A heart attack may cause SCA, but they are not the same. A heart attack is caused by a blockage that stops the flow of blood to the heart. SCA is a malfunction in the heart's electrical system, causing the heart to suddenly stop beating.

How common is sudden cardiac arrest in the United States?

SCA is the #1 cause of death for adults in this country. There are about 300,000 cardiac arrests outside hospitals each year. About 2,000 students die of SCA each year. It is the #1 cause of death for student athletes.

Are there warning signs?

Although SCA happens unexpectedly, some people may have signs or symptoms, such as:

- fainting or seizures during exercise;
- unexplained shortness of breath;
- dizziness;
- extreme fatigue;
- chest pains; or
- racing heart.

These symptoms can be unclear in athletes, since people often confuse these warning signs with physical exhaustion. SCA can be prevented if the underlying causes can be diagnosed and treated.

What are the risks of practicing or playing after experiencing these symptoms?

There are risks associated with continuing to practice or play after experiencing these symptoms. When the heart stops, so does the blood that flows to the brain and other vital organs. Death or permanent brain damage can occur in just a few minutes. Most people who experience SCA die from it.

Act 59 – the Sudden Cardiac Arrest Prevention Act (the Act)

The act is intended to keep student-athletes safe while practicing or playing. The requirements of the act are:

- All student-athletes and their parents or guardians must read and sign this form. It must be returned to the school before participation in any athletic activity. A new form must be signed and returned each school year.
- The District will hold an informational meeting at least annually for all competitors regarding the symptoms and warning signs of sudden cardiac arrest. In addition to the student athletes, such meetings may include parents/guardians, coaches, other appropriate school officials, physicians, pediatric cardiologists, and athletic trainers.

Removal from play/return to play

- Any student-athlete who shows signs or symptoms of SCA must be removed from play. The symptoms can happen before, during or after activity. Play includes all athletic activity.
- Before returning to play, the athlete must be evaluated. Clearance to return to play must be in writing. The evaluation must be performed by a licensed physician, certified registered nurse practitioner or cardiologist. The licensed physician or certified registered nurse practitioner may consult any other licensed or certified medical professionals.

I have reviewed and understand the symptoms and warning signs of SCA.
