Title MEDICATIONS ADMINISTRATION

MEDICATION & USE OF MEDICAL DEVICES ON SCHOOL PROPERTY DURING SCHOOL HOURS OR DURING SCHOOL-RELATED ACTIVITIES

Guide

Adopted AUGUST 21, 1989

Revised NOVEMBER 16, 2009; OCTOBER 19, 1998

POLICY NO. 210

MEDICATIONS ADMINISTRATION OF MEDICATION AND USE OF MEDICAL DEVICES ON SCHOOL PROPERTY DURING SCHOOL HOURS OR DURING SCHOOL-RELATED ACTIVITIES

Section 1

Purpose

The Keystone Oaks School District requires that, to the extent medically possible, use of medication by its students take place outside the school day and at the student’s home or other appropriate location, other than within school buildings, on school property or during school-related activities.

The School District recognizes, however, that there may be situations where it is necessary, in order to permit a student to attend school and to benefit from the educational experience, for a student to self-administer or to be administered, medication, or use a medical device, on school property, during the school day or during school related activities. Under such circumstances and in accordance with this Policy, School District personnel will administer and/or supervise the self-administration of prescription and non-prescriptions medications to students and the use of medical devices by students.

The purpose of this policy shall be to set forth guidelines for the administration of medications to students during school hours.
POLICY NO. 210

MEDICATIONS ADMINISTRATION OF MEDICATION AND USE OF MEDICAL DEVICES ON SCHOOL PROPERTY DURING SCHOOL HOURS OR DURING SCHOOL-RELATED ACTIVITIES

The administration of prescribed medication to a student during school hours in accordance with the written direction of the student’s licensed medical healthcare provider and the written request of the parent/guardian will be permitted only when failure to take such medicine would jeopardize the health of the student, and the student would not be able to attend school if the medicine were not available during school hours.

The administration of over-the-counter medication will also be permitted with the written consent of the parent/guardian.

This policy shall be interpreted consistent with all applicable state and federal regulations.

The District shall act in a manner consistent with the ADA, Section 504, the IDEA and all other laws protecting the rights of students with disabilities.

Whenever a student has a Section 504 plan and/or IEP, that plan supersedes this policy to the extent it contains different and/or more detailed provisions than those set forth in this policy.

Parent/guardians are hereby notified that, in accordance with the terms of this Policy, the supervision of self-administration of such medication/medical devices may not always be performed by the School Nurse, but may be performed by a duly designated school employee.

Section 2

10. Listing of any other known medications which have been prescribed for the student, by responding physician or any other physician;
11. Listing of any medications not prescribed by a physician, which physician has reason to believe is (are) being used by the student; and
12. Physician’s signature, address and telephone number.

In addition, the current written physician’s order presented to the School District in accordance with this Policy must document the need to administer the medication to the student, or for the student to use the medical device during the school day.

As such, said order must indicate why the medication may not be appropriately administered and/or the medical device may not be appropriately used outside the confines of the school day. Where the physician fails to provide such information, or indicates an alternative administration schedule, and does not indicate that such alternative schedule for administration of medication will not satisfactorily address the student’s medical needs to the School District will be under no obligation to administer the medication to the student, or supervise the self-administration of the medication and/or permit use of the medical device by the student, during the school day.

Similarly, in the event the written physician’s order referenced above requires the administration of medication and/or use of the medical device at such defined or infrequent intervals that it is possible to implement the physician’s orders, wholly or partly outside the confines of the school day, the School District will advise the parent/guardians of the same, and administration of the medication and/or use of the medical device shall, to the extent consistent with the written physician’s order, take place outside the school day, off school property, and by individuals other than School District personnel.

The School District reserves the right to request review of the current physician’s order both by the School Physician and the School Nurse, related to the question of the timing of the administration of medication and/or the ability of the student to...

In the event of a dispute or discrepancy between the opinions of the School District's Physician/School Nurse, and the student's physician, an effort will be made to amicably resolve the concern in the manner most advantageous to the student, in view of the School District's clear preference for administration of medication to its students and use of medical devices by its students at times other than during the school day and at locations other than on school premises. In the event the parties are unable to resolve such discrepancies, the student's parent/guardian(s) shall be asked to sign an agreement releasing and indemnifying the School District, its officers, agents and employees, from any liability as a result of the School District's compliance with the written order provided by the physician for the student. Notwithstanding the foregoing, the parent/guardians of a "protected handicapped student" within the meaning of the Regulations issued by the Pennsylvania Department of Education and found at 22 Pa. Code Chapter 15, or of a student whose IEP requires the administration of medication and/or use of a medical device, shall not be asked or required to execute such a Release and Indemnity Agreement.

Investigation

The building principal or administrator shall facilitate cooperation with the relevant state Department of Public Welfare or the county agency investigating a report of suspected child abuse, which may including permitting authorized personnel to interview the child while in attendance at school.

Upon notification that an investigation involves suspected child abuse by a school employee, the building principal or administrator shall immediately implement a plan of supervision or alternative arrangement that has been approved by the Superintendent for the school employee under investigation. The plan of supervision or alternative arrangement shall be submitted to the county agency for approval. In addition, communication will be made with local law enforcement. In the case where a professional employee is being investigated for suspected child abuse, the Superintendent will make a report to the State Ethics Commission.

The administrator who receives a report from a school employee or who has independent cause to suspect injury or abuse by a school employee shall immediately report to law enforcement officials and the appropriate district attorney. The principal shall exercise no discretion but has an absolute duty to report when receiving notice from a school employee.

A school employee or principal who refers a student abuse report shall be immune from civil and criminal liability arising out of the report.

School officials shall cooperate with the Department of Public Welfare or the county agency investigating a report of suspected student abuse, which may include permitting authorized personnel to interview a student while in attendance at school.

Law enforcement officials and the county agency shall coordinate their respective investigations. They shall conduct joint interviews with students, but law enforcement officials shall interview school employees prior to the county agency.

The principal has an independent duty to report to the Superintendent or designee that an employee has allegedly abused or otherwise victimized a student. The requirement not to divulge the existence of the report or its content shall not limit the principal's responsibility to use the information received to initiate and conduct an independent school investigation into the allegations. The independent school investigation shall be conducted in cooperation with the county agency and law enforcement officials, and shall be for the purpose of ascertaining appropriate employee discipline and taking action necessary to curtail wrongdoing.
