Release of Directory Information “Opt Out”

Policy 216: Student Records

The Family Educational Rights and Privacy Act (FERPA), a Federal law, requires that Keystone Oaks School District, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, the District may disclose appropriately designated “directory information” without written consent, unless you have advised the District to the contrary in accordance with district procedures. The fundamental principal of Policy 216: Student Records is that no information other than directory information should be released regarding a student without prior informed consent of the student and/or his/her parents/guardians. Directory information can be made public without specific consent of the parents/guardians or eligible students. Directory information would not generally be considered harmful or invasion of privacy if disclosed.

Common types of directory information may include the following: Students name; Address; Telephone Listing; Email Address; Photograph; Date and place of birth; Primary field of study; Dates of attendance; Grade level; Participation in officially recognized activities and sports; Weight and height of members of athletic teams; Degree, honors, and awards received; The most recent educational agency or institution attended; and Student ID number, user ID, or other unique personal identifier not to include a social security number.

By signing below, the parents/guardians/eligible students (students who are 18 years of age or older) are acknowledging that they have reviewed Policy 216: Student Records and do not wish for the District to disseminate any information including directory information to any outside agency that contacts the District other than required by law or including such directory information in any District Publications or social media accounts.

Only one form is needed per household per year. Thus, if you have more than one student in the District, you will only complete one form and will list all students below. It is the parent/guardian’s or eligible student’s responsibility to resubmit this form on an annual basis. Parents/Guardians or eligible student must notify the District in writing within 10 business days of the first day of school or for students enrolling after the beginning of the school year, within 10 business days of enrollment. Parents/Guardians or eligible students may opt out at any time during the year, and the District will cease releasing directory information within 10 business days.

**Policy No. 220**  
**STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS**

### Section 1: Purpose

The right of public school students to freedom of speech is guaranteed by the Constitution of the United States and the constitution of the Commonwealth. The Board respects the right of students to express themselves in word or symbol and to distribute and post materials in areas designated for posting as a part of that expression. **But** The Board also recognizes that the exercise of that right must be limited by the District’s responsibility to maintain an orderly school environment and to protect the rights of all members of the school community.

This policy addresses student expression in general and distribution and posting of materials that are not part of district-sponsored activities. Materials sought to be distributed or posted as part of the curricular or extracurricular programs of the District shall be regulated as part of the school district’s educational program.

### Section 2: Definitions

**Distribution** – students handing non-school materials to others on school property or during school-sponsored events; placing upon desks, on or in lockers; or engaging in any other manner of delivery of non-school materials to others while on school property or during school functions. When email, text messaging or other technological delivery is used as a means of distributing or accessing non-school materials via use of school equipment.
**POLICY NO. 220**

**STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS**

or while on school property or at school functions, it shall be governed by this policy. Off-campus or after hours distribution, including technological distribution, that does or is likely to materially or substantially interfere with the educational process, including school activities, school work, or discipline and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights is also covered by this policy.

**Expression** – verbal, written or symbolic representation or communication including the wearing of buttons, badges or armbands.

**Non-school materials** – any printed or written materials meant for posting or general distribution to others that are not prepared as part of the curricular or extracurricular program of the District, including but not limited to fliers, invitations, announcements, pamphlets, posters, internet bulletin boards, personal websites and the like.

**Posting** – publicly displaying non-school materials on school property or at school-sponsored events, including but not limited to affixing such materials to walls, doors, bulletin boards, easels, the outside of lockers; on district-sponsored or student websites; through other district-owned technology and the like.

**Section 32**

**Authority**

The Board reserves the right to designate and prohibit manifestations of student expression which are not protected by the right of free expression.

Students have the right to express themselves in any manner unless such written, oral, or nonverbal expression is likely to or does materially or substantially interfere with the educational process including school activities, school work, or discipline and order on school property or at school functions; threatens serious immediate harm to the welfare of the school or community; encourages unlawful activity; or interferes with another individual’s rights.

Student expression that occurs on school property or at school-

Sponsored events is fully governed by this policy. In addition, off-campus or after hours expression is governed by this policy if the student expression involved constitutes unprotected expression as stated in this policy and provided the off-campus or after hours expression does or is likely to materially or substantially interfere with the educational process, including school activities, school work, or discipline and order on school property or at school functions; threatens serious harm to the school or community; encourages unlawful activity; or interferes with another's rights.

The Board shall require that distribution and posting of non-school materials occur only at the places and during the times set forth in written administrative regulations. Such regulations or procedures shall be written to permit the orderly operation of schools, while recognizing the rights of students to engage in protected expression.

School authorities may restrict the use of certain bulletin boards to school announcements. Bulletin board space shall be provided for the use of students and student organizations.

The following general limitations on posting may be applied:

a. School officials shall prohibit material which is obscene according to current legal definitions, which is libelous, or which inflames or incites students so as to create a clear and present danger of the commission of unlawful acts or of physical disruption of the orderly operation of the school.

b. Identification on any posted notice may be required of student or student group, including the name of at least one person of the group posting such notice.

c. School officials may require that notices or other communications be officially dated before posting, and that such material be removed after a prescribed reasonable time to assure full access to the bulletin boards.

The Board may have printed material submitted to the

Appropriate school official prior to distribution within the school for the purpose of determining whether distribution would result in substantial disruption of or material interference with school activities. The rules for prior submission must be specific, reasonable and not calculated to delay distribution unduly. Before distribution can be denied, the threat of disturbance shall be real and not immaterial. The Board shall have rules to protect those who distribute materials in a peaceful and lawful manner. Threats by other students should not lead the Board to prohibit lawful distribution.

The Board may set forth the time and place of distribution of literature, leaflets, and newspapers so that distribution does not materially and substantially interfere with the requirements of appropriate discipline in the operation of the school. A proper time and place for distribution is one which would give the students the opportunity to reach fellow students. The place of such activity may be restricted to permit the normal flow of traffic within the school and at exterior doors.

The Board may require that all printed matter and petitions distributed on school property bear the name of the sponsoring organization and the name of one individual of such organization.

welfare of students.

3. Using obscene, lewd, vulgar or profane language – whether verbal, written or symbolic.

4. Inciting violence; advocating use of force; or encouraging violation of federal, state or municipal law, Board policy or district rules or regulations.

5. Are likely to or do materially or substantially interfere with the educational process, including school activities, school work, or discipline and order on school property or at school functions; threaten serious harm to the school or community; encourage unlawful activity; or interfere with another’s rights including civil rights.

6. Violating written school district administrative regulations or procedures on time, place and manner for posting and distribution of otherwise protected expression.

Spontaneous student expression which is otherwise protected speech is not prohibited by this section.

Discipline for Engaging in Unprotected Expression

The Board reserves the right to prohibit the posting or distribution of non-school materials containing unprotected expression and to prohibit students from engaging in other unprotected student expression, as well as to stop unprotected student expression when it occurs. The Board reserves the right to discipline students for engaging in unprotected expression. Where such expression occurs off campus and away from school functions, a nexus between the unprotected expression and a substantial and material disruption of the school program must be established.

Distribution of Non-school Materials

The Board requires that students who wish to distribute or post non-school materials on school property shall submit them two (2) full business days in advance of planned distribution or

Title 22 Sec. 12.2
Title 22 Sec. 12.9
POLICY NO. 220
STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS

posting to the building principal or designee, who shall forward a copy to the Superintendent.

The building principal or designee shall notify the students prior to the planned distribution or posting whether they may post or distribute the material or whether they may not post or distribute the materials because the materials constitute a violation of Board policy.

All non-school materials shall include the name of the student who is distributing or posting the non-school material or who represents an organization or group distributing or posting the material, and the name of any such organization or group.

Students who post or distribute non-school materials in compliance with this provision may still be ordered to desist from such distribution if the materials are later found to be unprotected expression under this policy.

Students who distribute printed materials shall be responsible for clearing any litter that results from their activity and shall schedule the event so that they do not miss instructional time themselves.

The building principal or designee shall determine the appropriate time, place, and manner for distribution, consistent with avoiding disruption to the education process and normal school activities. Considering that alternate means of distribution will be provided, students shall not distribute hard copy of written material in hallways or otherwise inside of the school building except as authorized by the building principal.

**Posting of Non-school Materials**

If a school building has an area where individuals are allowed to post non-school materials, students may post such items as well, if the materials do not constitute unprotected expression and the items are submitted for prior review in the same manner as if the students were going to distribute them.

Such materials shall be limited to announcing the time, place, and purpose of meetings and events.
POLICY NO. 220  
STUDENT EXPRESSION/DISTRIBUTION AND POSTING OF MATERIALS

Such materials shall be officially dated, and the District may remove the materials within ten (10) days of the posting or other reasonable time as stated in the administrative regulations or procedures relating to posting.

Review of Student Expression

School officials shall not censor or restrict non-school materials or other student expression for the sole reason that it is critical of the school or its administration, or because the views espoused are unpopular or may make people uncomfortable.

Student-initiated religious expression is permissible and shall not be prohibited except as to time, place and manner of distribution, or if the expression involved violates some other part of this policy, e.g., because it is independently determined to be unprotected expression under the standards and definitions of this policy.

The review for unprotected expression shall be reasonable and not calculated to delay distribution.

Appeal of the reviewer's decision may be made to the Superintendent and then to the Board, in accordance with Board policy and district regulations or procedures.

Students may use publications, handbills, announcements, assemblies, group meetings, buttons, armbands, and any other means of common communication, provided that the use of District communications facilities shall be in accordance with the regulations of the authority in charge of those facilities. Students have the responsibility to obey laws governing libel and obscenity and to be aware of the full meaning of their own expression. Students have the responsibility to be aware of the feelings and opinions of others and to give others a fair opportunity to express their views.

The wearing of buttons, badges, or armbands bearing slogans and sayings shall be permitted as another form of expression, unless the message falls within the restrictions stated. No teacher

or administrator shall attempt to interfere with this practice on the grounds that the message may be unpopular with the students or faculty.

Students have the right to distribute leaflets, newspapers, and other printed material adjacent to school property without any restriction by school authorities.

Student Publications

Students have the responsibility to refrain from libel and obscenity and to observe the rules for responsible journalism. Within these bounds, students have a right and shall be as free as editors of other newspapers to report the news and to editorialize.

School officials shall supervise student-run newspapers published with school equipment and shall remove obscene or libelous material, as well as edit material that would cause a substantial disruption or material interference with school activities.

The above is subject to the following:

1. School officials may not censor or restrict material simply because it is critical of the school or its administration.

2. District rules regarding prior submission for review of obscene, libelous material and material advocating illegal actions should be reasonable and not calculated to delay distribution.

3. Prior approval procedures shall identify to whom the material is submitted, the criteria by which the material is evaluated and a limitation of the time within which a decision shall be made. If the prescribed time for approval elapses without a decision, the literature shall be considered as authorized for distribution.

4. Students who are not members of the newspaper staff and other members of the school community shall have

access to its pages. The criteria for submission of material by nonstaff members shall be published and distributed to all students.

5. Staff members shall be held responsible for materials which are libelous or obscene, and such publications may be prohibited.

**Unofficial Publications**

The constitutional right of freedom of speech guarantees the freedom of students to publish, on their own, materials other than those sanctioned by the schools. The District has no responsibility to assist students or to provide facilities in the publishing of such materials, nor may the District be held responsible for any statements published in them. The newspaper staff members themselves have sole responsibility for any statements published. Unofficial publications have moral and legal obligations to observe the rules of responsible journalism.

### Section 5
**Delegation of Responsibility**

The Superintendent shall assist the building principal in determining the designation of the places and times non-school materials may be distributed in each school building. Such designations may take into account maintenance of the flow of student traffic throughout the school and shall limit distribution of non-school materials to non-instructional times.

Disciplinary action may be determined by the administrators for students who distribute or post non-school materials in violation of this policy and district regulations or procedures, or who continue the manifestation of unprotected expression after a person in authority orders that they desist. Disciplinary actions shall be included in the disciplinary Code of Student Conduct.

SOCIAL MEDIA/ELECTRONIC COMMUNICATIONS

#### Section 1
**Purpose**

The Board recognizes that electronic communication and social networking are tools that allow faculty and staff to network within professional learning communities, share valuable resources and information, and stay up-to-date with current events. Social media applications and electronic communications, when used by the District, present an opportunity to connect with students, families, the community, and faculty/staff in a positive and efficient way.

While the District acknowledges the value of these tools; it also recognizes that there is a greater risk for impropriety, cyber-bullying, inappropriate behavior and other potential dangers.

With a heightened concern for student privacy, safety and well-being, and to ensure that the educational environment is safe and conducive to learning, the Board has set forth this policy and its expectations for staff in using electronic communication tools and social media.
